RE: Petition #3541101 of RIH Acquisitions NJ, LLC d/b/a ACH for Approval of New Gaming Chips (Value and Non-Value):

Dear Mr. Smith:

The staff of the Division of Gaming Enforcement's (Division) Regulatory Enforcement Bureau has reviewed Petition #3541101 filed by RIH Acquisitions NJ, LLC d/b/a ACH dated December 19, 2011. Specifically, ACH is seeking approval for a primary and secondary set of value chips and non-value chips for Roulette as set forth in the schematics which were submitted subsequent to this Petition on December 20, 2011 and a revised copy of the value chips submitted on January 06, 2012.

After review it has been determined that the design schematics submitted are acceptable. It is noted that ACH has proposed two (2) different denomination value chips than those listed under N.J.A.C. 13:69E-1.3(c) 1 through 12. Specifically, ACH has proposed to manufacture a 25 cent peach gaming chip and a 50 cent brown gaming chip which were included in the above noted petition. The design schematic for the 25 cent and 50 cent gaming chips are also acceptable.

This approval is conditioned upon the following requirements:
